Nuclear Medicine Communications **11**, 903–911 (1990)

INDEXES TO VOLUME 11

Subject index

The abbreviation (E) after a page number indicates an editorial article and (A) indicates a conference abstract.

Bone
1, 2, 3, or 4 phase bone imaging – how many are necessary?, 7(E)
Consistency in nuclear medicine reporting – a pilot study using bone scans, 253
Conversion of an old gamma camera to a bone mineral densitometer, 801
Diagnosis of bone infection, 463(E)
Differentiation of Charcot joint from osteomyelitis through dynamic bone imaging, 45
Intraoperative nuclear medicine, 261(E)
Quantitation of skeletal muscle necrosis using $^{99}Tc^{m}$-pyrophosphate with SPECT in a canine model, 143
Serial bone scans in Paget's disease: Development of new lesions, natural variation in lesion intensity and nature of changes seen after treatment, 747
Skeletal scintigraphy in carcinoma of the breast – a ten year retrospective study of 389 patients, 421

Brain
A 3-D anthropomorphic brain phantom for ECT applications, 11
Characteristics of the binding of N-isopropyl-p-[^{125}I]iodoamphetamine in the rat brain synaptosomal membranes, 327
Cortical cerebral blood flow in HIV-1-related dementia complex, 639
Cranio-facial trauma and cerebral SPECT studies using N-isopropyl-iodoamphetamine (123I), 361
Radioimaging of human malignant gliomas using indium-labelled monoclonal antibodies, 437
$^{99}Tc^{m}$-HM-PAO-brain SPECT in subarachnoid haemorrhage, 491
The investigation of dementia with single photon emission tomography, 823
The radiation dosimetry of $^{99}Tc^{m}$ exametazime, 791

Cardiac
Acute myocardial infarction delineated by noninvasive thallium-201/technetium-99m pyrophosphate tomography, 617
Assessment of right ventricular function with nonimaging first pass ventriculography and comparison of results with gamma camera studies, 539
Cardiac stress testing without the use of exercise, 663(E)
Early detection of left ventricular mural thrombi after acute Q wave myocardial infarction using ^{111}In oxine-labelled autologous platelets, 857
Estimation of right ventricular pressure by ^{201}Tl scintigraphy in paediatric cardiac disease, 677
Immunoscintigraphy with ^{111}In antimyosin Fab, 727
^{111}In–antimyosin antibody imaging for detection of myocardial infarction: a quantitative approach, 667
Isometric exercise testing and echocardiography at rest in aortic valve incompetence, 279
Radionuclide studies of left ventricular function in normal subjects, 607

0143–3636/90 $03.00+.12 *© 1990 Chapman and Hall Ltd.*

Standardized non-invasive assessment of myocardial free fatty acid kinetics by means of 15-(para-iodo-phenyl) pentadecanoic acid (^{123}I-pPPA) scintigraphy: I. Method, 865
Subtle ventricular dysfunction following coronary artery bypass surgery: evidence from radionuclide studies, 481
^{99}Tc^{m}-methoxy-isobutyl-isonitrile SPECT to evaluate a perfusion index from regional myocardial uptake after exercise and rest. Results of a four hour protocol in patients with coronary heart disease and in controls, 77

Endocrine

Rapid preparation of ^{123}I-labelled methylene blue and toluidine blue: potential new agents for parathyroid scintigraphy, 413
Simultaneous dual energy acquisition for ^{201}Tl/^{99}Tc^{m} parathyroid subtraction scintigraphy: physical and physiological considerations, 503
The importance of obtaining thyroid uptake measurement in patients with hyperthyroidism, 73(E)

Gastrointestinal

Effect of mild mental stress on solid phase gastric emptying in healthy subjects, 519
Fractional gastrointestinal transit time, intra- and interindividual variation, 247
^{67}Ga-scintigraphy for evaluation of AIDS-related intestinal infections, 649
Hepatic perfusion index in the diagnosis of overt metastatic colorectal cancer, 23
^{99}Tc^{m}-nanocolloid imaging in inflammatory bowel disease, 127
Technetium-99m antimony sulphide colloid lymphoscintigraphy of the prostate by direct transrectal injection, 589
The evaluation of a gastric bile probe, 777

Haematology and infection

A passive haemagglutination test for human anti-mouse antibody (HAMA) responses in patients undergoing immunoscintigraphy, 121
Abstracts of the International Research Group on Immunoscintigraphy and Immunotherapy (IRIST), Fifth Annual Symposium, 701(A)
Dual tracer technique to measure salvaged red cell survival following autotransfusion in aortic surgery, 369
Early detection of left ventricular mural thrombi after acute Q wave myocardial infarction using ^{111}In oxine-labelled autologous platelets, 857
^{67}Ga-scintigraphy for evaluation of AIDS-related intestinal infections, 649
Human neutrophils: evaluation of adherence, chemotaxis and phagocytosis, following interaction with radiolabeled antibodies, 37
Imaging of focal inflammation with ^{99}Tc^{m}-labelled human polyclonal immunoglobin G, 843
^{111}In platelet deposition following peripheral arterial thrombolysis, 565
Localization of inflammation with ^{111}In IgG and ^{99}Tc^{m} albumin colloid labelled leukocytes in a rabbit model, 737
Non-infectious cause of intense diffuse pulmonary uptake of indium-111 oxide labelled white blood cells, 573
Quantitation of changes in liver, spleen and lung uptake of ^{99}Tc^{m} sulphur colloid in patients undergoing autologous bone marrow transplantation, 511
^{99}Tc^{m}-nanocolloid imaging in inflammatory bowel disease, 127

Kidney

DMSA – the new 'gold standard', 725(E)
Effect of food and activity on the reproducibility of isotopic GFR estimation, 697

Evaluation of renal functional changes after extracorporeal piezoelectric lithotripsy (EPL) by radionuclide studies, 579
Models of renal blood flow and their use in the detection of renal artery stenosis, 427
Quantitation of pharmacologically induced penile erections: the value of radionuclide phallography in the objective evaluation of erectile haemodynamics, 445
Renal artery stenosis, reno-vascular hypertension and predicting the blood pressure response to renal revascularization, 1(E)
$^{99}Tc^{m}$-MAG3: *in vitro* stability and *in vivo* behaviour at different times after preparation, 405
The differential ratio. A method for describing blood flow in renal transplants, 771
Will factor analysis ever become a universally accepted routine in nuclear medicine?, 401(E)

Liver and spleen
Aminopyrine breath test in alcoholic cirrhosis, 289
Evaluation of bile duct complications after orthotopic liver transplantation by hepatobiliary scanning, 761
Hepatic perfusion index in the diagnosis of overt metastatic colorectal cancer, 23
Muscarinic control of gallbladder dynamics. A study using $^{99}Tc^{m}$-HIDA and cholinergic agonists, 813
Quantitation of changes in liver, spleen and lung uptake of $^{99}Tc^{m}$ sulphur colloid in patients undergoing autologous bone marrow transplantation, 511
Regional indices of relative hepatic arterial perfusion from dynamic liver scintigraphy: the variability of indices and the use of parametric imaging, 29
The evaluation of a gastric bile probe, 777

Lung
Comparison of technetium-99m aerosol and kryton-81m in ventilation studies for the diagnosis of pulmonary embolism, 631
Controversies in nuclear medicine, 151
Non-infectious cause of intense diffuse pulmonary uptake of indium-111 oxine labelled white blood cells, 573
Quantitation of changes in liver, spleen and lung uptake of $^{99}Tc^{m}$ sulphur colloid in patients undergoing autologous bone marrow transplantation, 511
The effect of forced expiration on the uniformity of $^{99}Tc^{m}$-DTPA aerosol ventilation images in patients with excess sputum production, 557
The use of caesium iodide mini-scintillation counters for dual isotope pulmonary capillary permeability studies, 879
Thoracic tissue thickness measured by transmission scintigraphy with $^{99}Tc^{m}$, 135

Oncology
A passive haemagglutination test for human anti-mouse antibody (HAMA) responses in patients undergoing immunoscintigraphy, 121
Abstracts of the International Research Group on Immunoscintigraphy and Immunotherapy (IRIST), Fifth Annual Symposium, 701(A)
Anti-melanoma antibodies bind preferentially to diploid metastases in immunoscintigraphy, 597
Hepatic perfusion index in the diagnosis of overt metastatic colorectal cancer, 23
Pharmacokinetics, biodistribution and dosimetry of $^{99}Tc^{m}$(V)DMSA in humans with squamous cell carcinoma, 343
Radioimaging of human malignant gliomas using indium-labelled monoclonal antibodies, 437
Skeletal scintigraphy in carcinoma of the breast – a ten year retrospective study of 389 patients, 421

Subcellular biodistribution of $^{99}Tc^{m}$(V)DMSA in squamous carcinoma: a comparative study in humans and in an animal tumour model, 547
$^{99}Tc^{m}$ (v) DMSA: a clinical, planar and SPECT study to evaluate patients with head and neck squamous carcinoma, 111
$^{99}Tc^{m}$ (v) DMSA and ^{67}Ga-citrate imaging in patients with head and neck squamous carcinoma: a clinical and scintigraphic study, 103
$^{99}Tc^{m}$ (v) DMSA: the pituitary sign, 313
Technetium-99m antimony sulphide colloid lymphoscintigraphy of the prostate by direct transrectal injection, 589
^{201}Tl scintigraphy in the staging of lung cancer, breast cancer and lymphoma, 263

Radiation protection

International Commission on Radiation Protection, 585(E)
Paediatric radiopharmaceutical dosimetry, 339(E)
Risks, their explanation, and written consent for nuclear medicine procedures, 819(E)
Staff radiation doses associated with nuclear medicine procedures – a review of some recent measurements, 271
The radiation dose to accompanying nurses, relatives and other patients in a nuclear medicine department waiting room, 17
The radiation dosimetry of $^{99}Tc^{m}$ exametazime, 791

Radiopharmacy

Assessing performances of Iodogen-coated surfaces for radioiodination of proteins, 295
Characteristics of the binding of N-isopropyl-p[^{125}I]iodoamphetamine in the rat brain synaptosomal membranes, 327
Cysteine, a chelating moiety for synthesis of $^{99}Tc^{m}$ radiopharmaceuticals III: functionalization of hydroxy group for $^{99}Tc^{m}$ chelation, 305
Initial clinical experience with a new kit formulation of TC-99m-β galactosylated albumin for functional hepatic imaging, 469
Investigation of factors affecting adhesion of $^{99}Tc^{m}$ labelled colloids to glass vials, 375
Radiopharmaceuticals and Product Licences of Right, 525(E)
Rapid preparation of ^{123}I-labelled methylene blue and toluidine blue: potential new agents for parathyroid scintigraphy, 413
$^{99}Tc^{m}$-MAG3: *in vitro* and *in vivo* behaviour at different times after preparation, 405

Tomography/instrumentation/computing

A 3-D anthropomorphic brain phantom for ECT applications, 11
Acute myocardial infarction delineated by noninvasive thallium-201/technetium-99m pyrophosphate tomography, 617
Cluster analysis for automatic image segmentation in dynamic scintigraphies, 383
Conversion of an old gamma camera to a bone mineral densitometer, 801
Cranio-facial trauma and cerebral SPECT studies using N-isopropyl-iodoamphetamine (123I), 361
Reproducibility and action levels for gamma camera uniformity, 95
Simultaneous dual energy acquisition for $^{201}Tl/^{99}Tc^{m}$ parathyroid subtraction scintigraphy: physical and physiological considerations, 503
$^{99}Tc^{m}$-HM-PAO brain SPECT in subarachnoid haemorrhage, 491
$^{99}Tc^{m}$-methoxy-isobutyl-isonitrile SPECT to evaluate a perfusion index from regional myocardial uptake after exercise and rest. Results of a four hour protocol in patients with coronary heart disease and in controls, 77

Technique for the use of standard outlines for attenuation correction and quantification in SPECT, 685
The investigation of dementia with single photon emission tomography, 823
The use of caesium iodide mini-scintillation counters for dual isotope pulmonary capillary permeability studies, 879
Thoracic tissue thickness measured by transmission scintigraphy with $^{99}Tc^{m}$, 135
Will factor analysis ever become a universally accepted routine in nuclear medicine, 401(E)

Vascular

Blood flow measurement from first pass time/activity curves: influence of bolus spreading, 477
^{111}In platelet deposition following peripheral arterial thrombolysis, 565
Quantitation of pharmacologically-induced penile erections: the value of radionuclide phallography in the objective evaluation of erectile haemodynamics, 445
$^{99}Tc^{m}$-HM-PAO brain SPECT in subarachnoid haemorrhage, 491
Technetium-99m antimony sulphide colloid lymphoscintigraphy of the prostate by direct transrectal injection, 589

Miscellaneous

Abstracts of the Autumn Meeting of the British Nuclear Medicine Society 1990, 889(A)
Abstracts of the BNMS Autumn Meeting 1989, 55(A)
Abstracts of the Eighteenth Annual Meeting of the British Nuclear Medicine Society, 171(A)
British Nuclear Medicine Society 18th Annual Meeting, 167(E)
Intercollegiate Standing Committee Report, 394
Intraoperative nuclear medicine, 261(E)
Quality assurance in nuclear medicine software and 'COST' 334(E)
The current cost of nuclear medicine, 527
